

MIRAKEL

The duo **MIRAKEL** lifts you on light wings of playfulness and virtuosity. Their music flows between the quiet and intimate to the danceable and almost hypnotic. When Marte's voice and Mikael's saxophone intertwine in beautiful pop songs and free improvisations—wrapped in floating atmospheres and groovy beats—love fills the air. Boundaries dissolve, and magic unfolds as they weave together keys, harp, saxophone, beats, and vocals.

With roots in both Eastern and Western folk traditions, pop, sacred music, and electro, **Marte Schau and Mikael Fleron** have crafted a sound uniquely their own. As skilled musicians with years of experience on the world music stage, they have created an entirely new genre: **Spiritual Electro Folk**.

Their repertoire consists of original compositions, where small mantras occasionally sneak in, inviting the audience to sing along and become part of the experience. The lyrics, mostly in English, carry messages of love, light, and joy—encouraging the listener to choose the path of the heart.

Marte, from Norway, and Mikael, from Denmark, have been partners for 25 years. Together, they formed **MEGAFON**, a band that played numerous concerts and was nominated for several Danish Music Awards. But they needed a fresh perspective, so they put MEGAFON on hold a few years ago. However, living without music simply wasn't an option.

In January 2024, they packed their little campervan **Carmen** full of instruments and headed south. Sailing across the Atlantic to the Canary Islands, they set out to create new music—and it turned out to be the perfect plan! After three months of musical exploration, **MIRAKEL was born**.

But the journey didn't stop there. This year, they did it again—traveling in **Carmen** all the way to Morocco to play concerts, connect with new audiences, and let the music guide them.

A Sonic Experience

MIRAKEL doesn't just make music; they channel energy into sonic experiences that spark creativity and connection. Their live performances are full of presence, humor, and layers upon layers of beautiful sound.

MIRAKEL's music is a perfect fit for a wide range of settings—from intimate gatherings like ceremonies, yoga shalas, and retreats to larger stages at festivals, cultural venues, and concert halls. With their unique ability to adapt to any space and connect deeply with their audience, they create an unforgettable experience wherever they play.

Marte is a primal force. Her wild voice spans from deep, warm tones to raw, powerful expression, all the way to a bright, crystal-clear sound. With her heart in hand, she invites you to feel, release, and surrender.

Mikael's main instrument is the saxophone, which also carries cascades of Nordic and Oriental tones when he improvises freely in **MIRAKEL's gentle universe**. He is also the **machine master**, making synthesizers and beats come alive!

With a deep love for ritual and rhythm, **MIRAKEL releases a new single every six weeks**—always in harmony with the cycles of the moon, on either a full moon or a new moon.

A Shower of Love

Look forward to a **miraculous experience**, where music becomes a portal to something greater.

Recommendation

"I had the great pleasure of experiencing Marte and Mikael at a fantastic concert. I was deeply moved and could feel their music in every single cell of my body. Their calmness and presence are wonderful, and Marte's voice is incredibly beautiful. It was a deeply touching and spiritual experience, which I warmly recommend to anyone who wants to connect with music on a higher level. There is no doubt that these two let the music flow through them without resistance. So loving and uplifting."

— **Gitte Koldtoft**
